PRODUCT SOLUTIONS

Our Story

Since 1995, Value Added Distributors (VAD) has built its reputation on expertise, reliable products and value-added solutions. As a Parker Hannifin Certified Hose Assembly distributor, we combine decades of application expertise with value-added distribution to help customers solve fluid power challenges and improve operational efficiency.

From hydraulic hose assemblies to specialized fluid power solutions, our team provides the products, expertise, and support needed to keep critical equipment moving.

Our Promise

We go beyond distribution to deliver products, expertise, and value-added solutions that simplify your supply chain, improve efficiency, and keep your operation moving.

Experts in Hydraulic Hose Assembly

From individual replacement assemblies to complete fluid connection systems, VAD provides OEM customers with dependable hydraulic hose solutions built to their exact requirements.

Every assembly is cut, crimped, tested, and tagged by VAD certified assemblers across our nationwide network, ensuring consistent quality, accurate specifications, and reliable fit.

ASSEMBLED EACH YEAR!***

WHAT WE SUPPLY

Fluid Power Solutions

Value Added Distributors provides access to a comprehensive range of Parker products backed by application expertise, custom fabrication, and value-added support.

Hose Products

Hydraulic, industrial, and Parflex thermoplastic hoses, cut, crimped, tested, and tagged by Parker Hannifin certified assemblers. Every assembly is built to spec and documented for reliable, ready-to-install performance.

Fittings & Hydraulic Adapters

A comprehensive range of hydraulic fittings and adapters for reliable, leak-resistant fluid connections.

Quick Couplings

Quick couplings designed for fast, secure connection and disconnection across hydraulic and industrial applications.

Hydraulic Components

Hydraulic seals, seal kits, adapter kits, and system components to support dependable hydraulic system performance.

Fabricated Products

Custom Cut Components

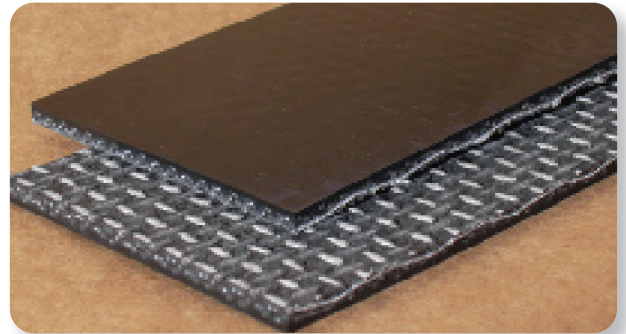

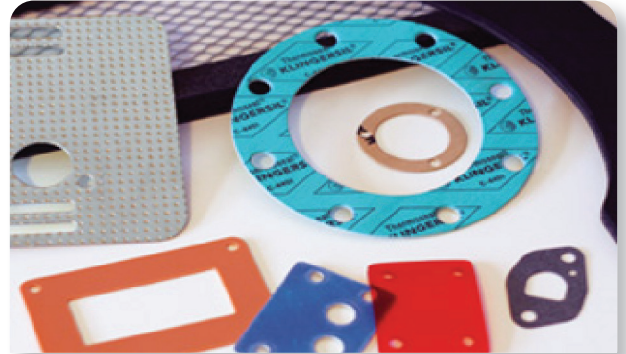

Value Added Distributors delivers precision-cut rubber, foam, and plastic components tailored to your exact application.

Applications

- » Guards
- » Shields
- » Conveyor Skirts
- » Pipe Gaskets
- » Floor Mats
- » Mud-Flaps
- » Snow Blades
- » Flex Steps
- » Cement Aprons
- » HVAC Gaskets

Materials

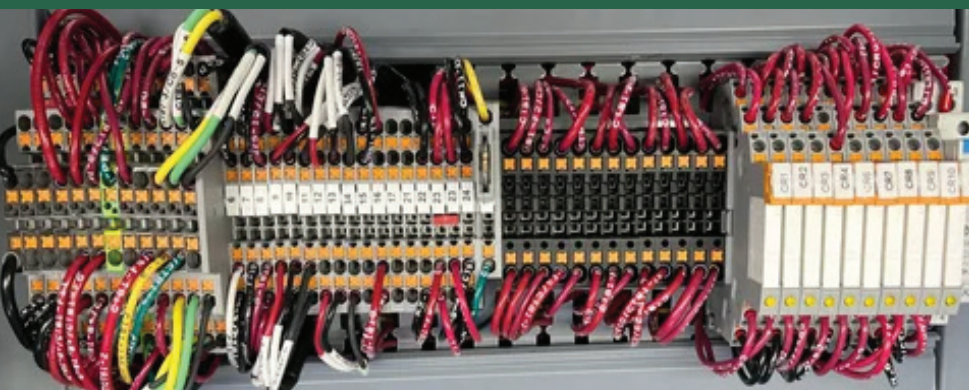

- » Sheet Rubber
- » Belting Materials
- » Silicone
- » Closed Cell Foam
- » Acoustical Foam
- » Mylar Faced Foam
- » UHMW Plastic
- » HPDE
- » ABS Plastics
- » Polyurethane

Wire Harness Solutions

Quality wire harnesses are crucial in heavy equipment operations to ensure safety, reliability, and efficiency. Value Added Distributors manufactures custom, high quality wire harnesses, cable assemblies, battery cables, and control panels built to your exact specification with documented quality.

- » Wide selection of major connector end configurations, wire types & gauges in stock!
- » Multi-pin connectors provide quick installation of wire harness, valve bank actuation and joystick control.
- » Value Added Distributors can build a harness assembly from a sample harness or a drawing.
- » Every harness that leaves our facility is tested for quality assurance.

VALUE-ADDED SERVICES

Vendor Managed Inventory

Keep critical components stocked, organized, and ready when you need them.

On-Site Hose Routing Consultation

Improve hose routing and assembly performance with on-site expertise.

Kitting Solutions

Simplify assembly with organized, application-specific component kits.

Cleanliness Testing

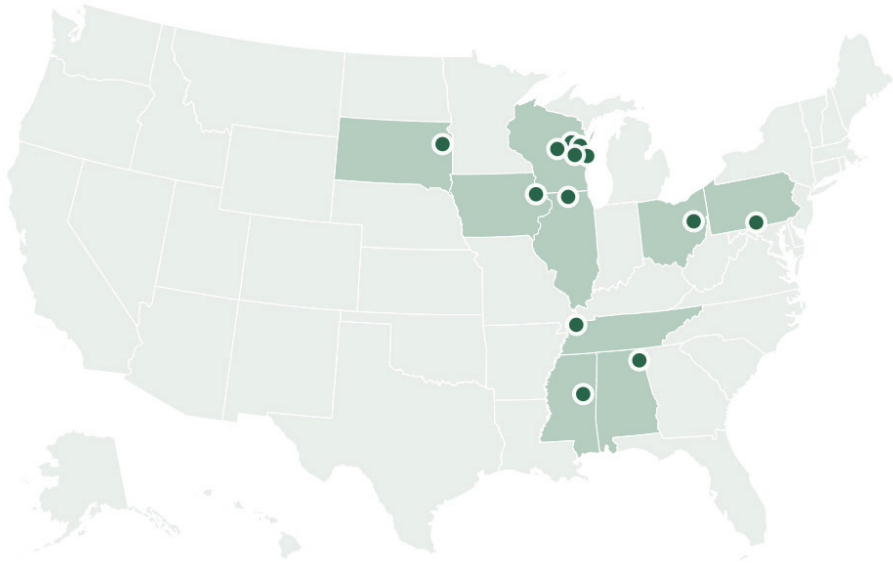

Verify fluid cleanliness to protect system performance and reliability.

Built to Support Your Business

Value Added Distributors provides the products, technical knowledge, and value-added services to help you find the right solution for your application.
