As we continue to align our operations for the future, we are excited to share an important update regarding our organization. Effective November 1, 2026, LTL Supply will officially fold operations under Value Added Distributors.

LTL Supply has been part of the Value Added family of companies for over a year now. This will continue to be the same location, staff and product quality you have come to expect from LTL.

If you already work with Value Added Distributors and have Value Added Distributors established as a customer in your system, this transition should be relatively seamless. We simply ask that future orders and related transactions reflect the Value Added Distributors name.

If you do not currently have Value Added Distributors set up as a customer, we have attached our Value Added Distributors Credit Information Sheet containing the information needed to establish or update our account within your system.

As part of this transition, we ask that you review our current payment setup. If we are not presently established with payment terms, we would appreciate your consideration of setting up payment terms and ACH payments. Moving away from credit card and check payments helps streamline processing, improves efficiency, and creates a smoother experience for both organizations.

We request this change is reflected in your system immediately.

We appreciate your partnership and cooperation during this transition. Should you have any questions or require additional documentation, please do not hesitate to reach out.

Thank you for your continued support!
